

Electronic Product Services Ltd. CEO invited as a Representative on '08 Analysis Team ahead of Quarterly Forum for Electronics Manufacturing and Supply Chain in San Jose, CA.

Dublin, September 10, 2008

eKNOWtion LLC recently acquired the Quarterly Forum for Electronics Manufacturing Outsourcing and Supply Chain, from the consulting and market research firm Technology Forecasters Inc. The Quarterly Forum is the premier research, insights and executive networking entity for OEMs, EMS Providers, ODMs, Distribution, 3PLs and Component Manufacturers with members ranging from Avnet, Celestica, Cisco, Hitachi, Intel, Microsoft, Oracle, RIM, Tellabs, Teradyne and Tyco amongst others.

Kathleen Geraghty and Douglas Kent, Founders of eKNOWtion, a global supply chain research, education and consulting firm now make up two thirds of the leadership team for TFI Quarterly Forum.

As part of its commitment to educate and inform, eKNOWtion are currently working on their 'crown jewel' of research reports, the annual Five Year Forecast for the electronics industry led by their Chief Economist, Matt Chanoff. Mick McCarthy, CEO of Electronic Product Services (EPS) Ltd. has been invited to contribute as part of a panel of analysts discussing this year's Forecast. *"Every year we are fortunate enough to attract industry experts that compliment the hard numbers with their insight on trends in the various industry segments that comprise the electronics industry",* says Doug Kent, *"We respect the deep experience that Mick has and are honoured to have him as a representative to join the '08 Analysis team."*

Mick has confirmed he will be on board as an industry contributor. *"I am pleased to accept the invitation extended by eKNOWtion",* he comments, *"My areas of experience these days tend to be Manufacturing in Asia and Eastern Europe and System Integrators & Value Add Resellers in the Enterprise Networking space. I'm happy to contribute to this exciting discussion and to offer any insight, experience or projections I can."*

Mick and his colleagues at EPS will be attending the upcoming Freescale FTF technology exhibition in Paris in October, GiTex exhibition in Dubai also in October and Electronica trade fair in Munich in November.
