

# Wi-Fi 5 2x2 Outdoor Access Point ion4\_w

## Product Description

- IO Next-Gen 2x2 Access Point is designed for outdoor use cases and provides a simple, cost-effective and high-performance network which is based on Qualcomm IPQ4019 chipset. AP supports 802.11ac Wave 2 with 2x2:2 MU-MIMO. It has concurrent dual-band radios and supports up to 867 Mbps on 5 GHz and 400 Mbps on 2.4 GHz
- The ruggedized APs provide excellent coverage and performance which truly makes it a Next Generation Wireless Access Point
- Its cost effective design supports connectivity of up to 150 meters with integrated antenna
- The two-piece enclosure with UV protected PC top and bottom body provides years of durability without hampering the enclosure

## Target Applications

# Unmatched Performance

## Higher Throughput

A dual-band radio offering peak data rates up to 1.27 Gbps. It comes with integrated omnidirectional high gain antennas for 360 degree coverage.

## Data Protection

It is equipped with an array of business-class security features such as WPA2-Personal, WPA2-Enterprise, WPA3-Personal, WPA3-Enterprise and Captive Portal Authentication. Rogue AP detection and prevention helps administrators identify authorized Access Points across the network, while MAC address filtering provides an additional layer of protection.

## Fast Roaming

In addition to the IEEE standards, ion4\_w is also Wi-Fi Alliance certified for Passpoint 3.0. This improves the user experience by offering mobile data offloading and streamlined, enterprise-class device provisioning and credential management for enterprise and other private networks.

## Network Segmentation

ion4\_w supports 8 SSID per radio and 16 combined, which gives the flexibility to segment your network as per the usage. This allows you to create guest user accounts, which can be firewalled from the rest of the network, enhancing the security since these users are prohibited from gaining access to sensitive data.

## Antenna

TX Power ~ 25 dBm with 2x9 dBi dual-band integrated omnidirectional antennas
